Safety Notice

- * Install the printer on the stable surface. Choose firm, level surface where avoid vibration.
- * Do not use or store the printer in high temperature, high humidity and serious pollution.
- * Connect the printer's power adapter to an appropriately grounded socket. Avoid using the same socket as large motors or other equipment that can cause voltage fluctuations in the power supply.
- * Don't let water or other conductive materials (such as metal) into the printer. Once this happens, turn off the power immediately.
- * Printer should not print in paperless state, otherwise it will seriously damage the print roller and thermal print head.
- * We recommend that you unplug the printer from the power outlet if no use it for a long period.
- * Use only approved accessories and do not try to disassemble, repair or remodel it by yourself.
- * Use only the power adapter that comes with the package.
- * In order to ensure the printing quality and product life, high quality printing paper is recommended.
- * Make sure that the power supply of the printer is turned off when unplugging the cable.
- * This product is only suitable for use in tropical climate conditions with an altitude of 5000 meters and below.

Application

- * POS system Receipts
- * EFT POS system Receipts
- * Gym, post, hospital, civil aviation system Receipts
- * Inquiry, Service system Receipts
- * Instrument test Receipts
- * Tax, Tab Receipts

3. Unpacking

After unpacking the unit, check that all the necessary accessories are included in the package.

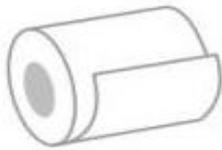

- * User's Manual 1 PCS
- * Printer 1 PCS
- * Data Cable 1 PCS
- * Power Adapter (include power cord) 1 SET
- * Test roll paper 1 PCS
- * CD 1 PCS

4. Key features

- * Support 300dpi resolution
- * 160mm/sec high-speed printing
- * Support kitchen printing and Ethernet printing
- * Support Receipt and Label printing
- * Support Cashdrawer kick-out
- * Low working noise
- * Compact and lightweight, attractive appearance
- * Reasonable structure of printer, easy maintenance
- * Various interface available (Serial + USB + Ethernet)
- * Built-in data buffer (can receive printed data when printing)
- * Support character enlargement, bold, underline, line spacing and character spacing
- * Support NV images download
- * Low energy consumption and low operation cost
- * Compatible with ESC/POS command set, optional number of characters and font per line (adjust DIP switch)

- * Character per line and character settings
- * Support Ethernet Printing status monitor, multiple connection printing and OPOS printing
- * Support printer identification, software binding and high-speed driver mode
- * Support various character sets (include GB18030)

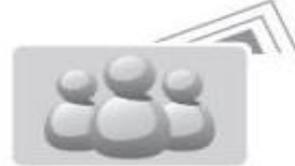

Support the no-lost function

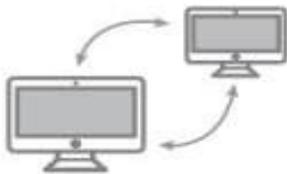

High – speed printing

Stable, Reliable

Network print

OPOS driver

Support various character sets
(include GB18030)

1. Physical specifications:

Dimension: 160*132*123mm;

Printer weight: 1.23kg;

2. Features:

300mm/s Print Speed;

75mm parents roll;

Mechanism life up to 150 km, Auto cutter life up to 1 million cuts;

Built-in data buffer;

Support different density bitmap and download graphics print;

Support character enlargement, bold, underline, line spacing and character spacing.

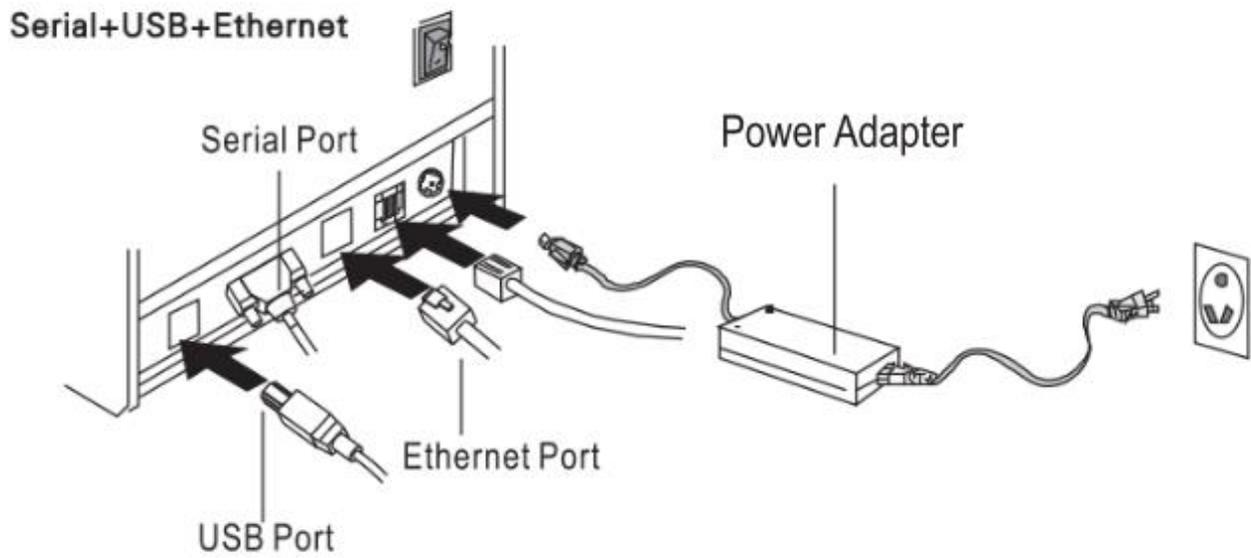

Compatible with ESC/POS command set.

3. Specifications:

Model	Print Mode	Direct thermal line
	Media Width	80mm
	Print Width	72mm
	Resolution	300dpi
